I have read and understand water/sewer service installation must comply with all regulations as described in the Codes of the Village of Richfield Springs, Chapter 26 §260.1- §260.35. The Department of Public Works requires this signed permit issued by the Village Board before any connection can be made to the public supply water main. I understand required inspections by the Superintendent of Public Works, Water Department Certified Operator, and Wastewater Chief Operator are necessary. I further agree to pay all costs of connection fees including street repair, inspection fees, meter installation, monthly water/sewer bills, and penalty fees may be incurred resulting from nonpayment or late payments.

Further, property owner agrees to indemnify and hold harmless the Village of Richfield Springs for said services.
